## T003A

# Cat 6 UTP 24 Ports RJ45 Patch Panel

## 110-Type TIA-568A/B compatible, rackmount or wallmount

## Products Features

- Rackmount or Wallmount
- Designed for 100/1000 Mbps networking
- Cat 5e/ Cat 5 compatible
- Suitable for applying to 22-26 AWG solid and standard UTP cables
- meet the T-568A transmission standard and the YD/T 926.1 specification, and meet the T568A and T568B line sequences.

## Specifications

| Product material | |
|---|---|
| Matel material | iron plate, iron frame, sprayed |
| IDC wire terminal | phosphor bronze nickel-plated |
| Non-metallic material | ABS plastic |
| RJ45 module socket | PBT engineering plastic, PC polycarbonate, ABS engineering plastic |
| **Electrical properties** | |
| Working voltage | 125 V |
| Withstand voltage | 750 V |

## Performance

| | |
|---|---|
| Insertion force | not more than 20N |
| Pull-out force | not less than 20N |
| Effect of connection | 50N60±5s |
| Operation environment temperature | -40 ~ +70 °C |
| Operation environment humidity | ≤ 85% (temperature 85°C ± 3 °C) |

## Durability

| | |
|---|---|
| Plug and socket insertion | 750 times |
| Wire termination | 250 times |
